TECHNICAL DATA SHEET

HARD FLOOR POLISH

PRODUCT DESCRIPTION

Hard Floor Polish is a water-based and ecological maintenance product that provides an extra layer of protection for all types of varnished floors. Hard Floor polish provides an extra protective film and removes micro-scratches, so that the original look of the floor is maintained. The extra protection ensures that the coating lasts longer and prevents adhesion of dirt. For matt floors, use Ciranova UNICARE X-MATT.

TECHNICAL DETAILS

APPEARANCE	MILKY
VISCOSITY	THIN LIQUID
DENSITY	1,05
PH Value	8
LUSTRE	SATIN

PRE-TREATMENT

Before using Hard Floor polish, the varnish layer must have hardened for at least 10 days. Ensure that the floor is clean before applying the Hard Floor polish. You can clean the floor with Hard Floor Fresh. Apply the Hard Floor polish to a dry and grease-free surface.

INSTRUCTIONS FOR USE

Use the Hard Floor polish undiluted. Apply the Hard Floor polish evenly with a microfiber cloth or a mop, in the direction of the wood grain. If necessary, a second coat of Hard Floor polish may be applied after 1 hour.

DRYING TIME

Approx. 1 hour at room temperature.

COVERAGE

Approx. 60-80m²/ litre.

AFTER-TREATMENT

For the regular maintenance of varnished floors and floors treated with Hard Floor polish, use Ciranova Hard Floor fresh. To remove old coats of Hard Floor polish, use Ciranova Hard Floor Cleaner.

PRODUCT INFORMATION

Shelf life : 18 months in original and unopened container. Store under frost-free conditions.

SPECIAL INDICATIONS

After use, clean tools with water. Do not mix with other cleaning products. Keep out of reach of children.

As with all wood finishing, always do a test area first to safeguard against an undesirable outcome. This technical data sheet is merely a guide and not a guarantee. All products are formulated to the best of our knowledge. The information is given as a result of many years experience. This product has had extensive tests carried out.
